

Thank you for your interest in our Online program! :)

This will be our 8th year offering the program and we have had great success with the program! It is an Online program, so you need consistent Internet access to use the program.

For \$320.00 (non-Hope enrolled families will also have a \$50.00 registration fee) per student, you will have access to every subject listed. This is a per student license and you will be set up as a teacher in the program. Licenses run August 10th to August 1st of each year. There is no proration for licenses.

The program offers placement testing, credit recovery, sets up your lesson plan, assigns lessons automatically, and is flexible enough to change at anytime (sickness, vacation, life event, etc). It also keeps up with your grades and tallies the percentages for you. There are some narrative type questions you must grade, as well as projects & experiments, but all multiple choice questions are graded by the system.

You will also have the freedom to activate, hold, and archive subjects as needed. You will also be able to reschedule missed days, as well as hold coursework for vacation days and holidays.

Aimee has also done an incredible job of putting together a “how to” and “tips & tricks” manual. This will be sent to you at registration.

If you are interesting in signing up, please complete the attached form and mail it to Hope Christian School, Attn: Dawn, 2053 Old Montgomery Highway, Hoover, AL 35244 with your payment. If you would like to use a credit or debit card, our servicer charges 3%, so that amount will be added to your total. Check, Cash or Money order does not have additional fees. The license is non-refundable after September 1st.

Please let me know if you have additional questions, I would love to help!

Thank you so much!
Blessings,
Dawn

Hope Online – Curriculum

Hope Christian School offers Hope Online (Ignitia) to both Hope Enrolled Students and Non-Hope Students. Enrollment in Hope Online does not constitute enrollment in Hope Christian School. Hope Online is your curriculum provider only. Fees are based on registration as a Hope Student or as a non-Hope Student. Please contact Dawn Burchfield at admin@hopechristian.net for additional information.

- **WHAT IS HOPE ONLINE?**
 - Hope Online is a versatile and multi-functional online learning platform, with streamlined efficiencies and interactive features that enrich the educational experience for Christian teachers and students in elementary, middle, and high school. Hope Online offers curriculum for grades 3-12 covering all the core subjects and a multitude of electives. Due to this wide offering, you are able to pick and choose what will work best for your unique student. If a class does not fit, you can drop it and enroll them in another class.
 - This program is designed for use in Christian schools and as such, it has some unique aspects. First, it uses school wide calendar, so it will use the calendar setup by Hope for the assigned school days, however, you can put assignments on hold to fit your school year.
 - Since it is setup for classroom use, we must assign your students to you. To do this, we must enroll your student in an initial course. We have created a very basic one-page introduction to Hope Online as the course. This simply serves as a tool to assign your student to you as their teacher and does not constitute an actual class or credit towards any work. It will conclude with one question that they answer, and the course is complete.

Hope Online Features

- **Placement Tests**
If you are unsure where to begin, Hope Online offers a Placement Test option. This will help ensure that your student starts off on the level best suited for them. We have included a copy of the Placement Test Guide to assist you in the process. Perhaps, you know what grade, but are worried about gaps, you may want to consider the Prescriptive Credit Recovery Mode.
- **CRx (Prescriptive Credit Recovery) Mode:**
CRx (Prescriptive Credit Recovery) Mode is designed to allow students who have previously taken a course to revisit the course and receive credit for material they have already mastered without having to repeat the entire course. Currently, the threshold defaults to 70. We do recommend that if you use this feature, you consider a higher threshold. After all, you want to be certain that it starts them at a level where they have mastery of what is considered recovered. Best of all, it's simple for teachers to implement. Just choose the course in the Add Enrollment window. Check the CRx Mode box and click the Add Enrollment button. We have included two resources to assist you. You will find the CRx User Guide and the CRx Pacing Guide.
- **Career and Technical Education Courses:**
For those of you using Hope Online for a High School Student, there are a multitude of Electives available for you. Be sure to take a moment and check out the Career and Technical Education Courses offered. From Architecture to Transportation and everything in between, this can be an invaluable resource for helping your student find their passion for their future career. There are also a few items for your Middle School Student. We have included attached a copy of the Career and Technical Education Course List, as well.

Hope Online is a fantastic program via the Ignitia platform. Because you have access to ALL grade levels, 3rd through 12th plus all electives and all career path subjects, it's incredibly affordable! It tracks lessons, progress, and even averages your grades for you.

Do you have a student that is struggling in some subjects and may be on different grade levels in each subject, or perhaps your student is advanced and can complete additional subjects in a year, or maybe you just aren't sure about a subject and not sure you want to spend the money to "see" if they like it? With Hope Online, you have the ability to select subjects on multiple grade levels, begin new grade level subjects as soon as one is complete (or even simultaneously), drop a subject & begin a new one - all with no additional cost. Placement testing and credit recovery is also available through the system.

Licenses will be active the 2nd week of August 2025 and will run until August 10, 2026. Hope Online is for use of the curriculum/license only - this does not include enrollment in Hope Christian School.

Please let us know if you have any additional questions! Thank you!

Hope Online **COURSE LIST** 2025–2026

What's New for Back to School '25-'26

Take a look at the exciting updates coming to Ignitia

The teams at Ignitia have been hard at work ensuring we deliver the best product and experience to our valued customers. We are very excited to showcase some new and updated content available for Ignitia.
